Commodore's Report

I hope that this log report finds everyone safe and healthy. During these unprecedented times when uncertainty is the only thing certain, know that we will get through this and we will be boating this year.

That being said, we have had to cancel or postpone the events in May. Going forward this year means that your attendance at club events has become even more critical. We will do our best to still have several events this year so all can enjoy the boating season.

I usually end my report with the number of days left until the boat goes back in the water. Now, all I can say is that the boat will go back in the water. I just don't know when.

This is your Club: Get involved

Vice Commodore's Report

May is here and the weather will get better (eventually). Hopefully some of the Covid 19 restrictions will start to be lifted this month (including the opening of Marinas) allowing us access to our boats to make them ready for the season. With the outbreak and the subsequent international travel restrictions it will be an interesting boating season. To keep our club successful and progressing into the future we need all our members to participate in our events, when our events resume. Along with your SPBC membership you get access to the AYC and ILYA clubs and ports. Please remember our Club does not operate on thanks alone, there is a dedicated team of members continually working in the background, planning events and doing all the leg work to make us proud to be SPBC Members. If you are new or newer to the club or a lifer, please consider stepping forward to assist with events as they are announced. More hands obviously make less work and more fun for all of us!!

We also have a few positions open on the Board of Directors that we would like to have filled. The positions are Assistant Fleet Captain and Rear Commodore, if you are interested in joining the Board please email Commodore Bill Deans with your information. This is a great way to meet new boaters and have an active role in the success of Sun Parlour Boat Club.

Fleet Captain's

Report

Due to the recent Coronavirus scare all AYC meetings are cancelled until further notice. SPBC Club events are also cancelled until further notice. This includes our May events, Blessing of the Fleet and Shakedown Cruise. Here's hoping to the end of the Coronavirus scare so we can get our boats in the water and carry on!!

Report

Well, we are still cooped up in our homes! I don't know about anyone else, but I am getting very antsy and very ready for a boat club function, but we must do what needs to be done and be patient!

This Covid19 has affected so many people and businesses including Sun Parlour Boat Club. We have 58 paid memberships, 16 Lifetime members, 8 not renewing their membership, 2 still deciding if they will renew or not, and 12 who have not replied to any notice I have sent out. I know some are worried that there will not be much of a boating season this year, so why renew. I understand the frustration and uncertainty but this will pass! The marinas will reopen, boats will go in the water, friendships and camaraderie will be rekindled and our lives will go on!

So for those who are still deciding, please be optimistic and renew. Our Club really needs your support. We do not want to be another casualty of this rotten virus!

I can't wait to get back in my boat. I can't wait to get together with family and friends. I can't wait to get my life back to normal. And I know it will!

Rick Ingalls

Quite Seriously, I hope that you, your family, your friends and close associates remain unaffected by this terrible situation we are in presently. None the less, we contend on a daily basis with the cards we are delt. In hopes of keeping spirits high and bringing about a quick end to all this, I have assembled a collage of humour to brighten your day.

I made the mistake of telling my husband an early symptom of COVID is loss of smell.

He's taken to passing gas in my vicinity & then when I react, informing me he is helpfully "performing a health check".

He taught the children the technique.

I may divorce him.

Day 6 of quarantine: my cat is still trying to figure out why I'm in his house after 8 am

Have you ever come into contact with glitter? Like hugged or shaken hands with someone who was wearing or using it? And how for the next two weeks it hangs around forever and ends up on surfaces you can't recall touching, and places you can't imagine it ever getting, and seems to still be there even after showering and washing?

Think of COVID-19 as glitter.

Eighth day of self isolation and it's like Vegas in my house. We're losing money by the minute, cocktails are acceptable at any hour, and nobody knows what time it is.

Now I know why dogs get so excited to go for walks

My new social distancing outfit just arrived from amazon

Who's laughing at our plastic money now, eh

So ... I was going through some pics to try to fill up an area on this page and I had an idea. How about a caption page? If you can think of a caption to apply to any of these pictures or any pics that you might have taken, send them to me (spbcommunications@bell.net) and I will forward them to our members, just for a few laughs.

The cat that ate the canary

Really Chris, do you think we can get away with this?

Yep, I spotted it with this eye, right here.

Ok, who's the bugger that cut the cheese?

You know what he called me after that?

The definition of what's called a happygrams.
